About the Journal

The Global Journal of Novel Research in Medical Sciences (NRMS) is an international peer-reviewed journal published on a regular basis. The journal's objective is to publish high-quality theoretical and practical research in clinical medicine, basic medicine, physiotherapy, pathology, microbiology, biochemistry, surgical research, public health and epidemiology, and pharmacology, among other fields.

Only original contributions that improve medical knowledge or practice, or educate the journal's readers, are accepted by NRMS. Manuscripts must be the sole work of the named author(s), have not been previously or partially published elsewhere, and are not currently being considered by another journal. The editorial team reviews all manuscripts submitted to NRMS, and all original publications are reviewed by Double Blind peer reviewers assigned by the editors.

The mission of the 'NRMS' Journal is to publish scientific and research findings in order to enlighten and disseminate scientific findings, guidance, risk assessment judgments, and recommendations for future study in medical science, medicine, microbiology, biochemistry, and pharmacology. It also intends to raise scientific work's visibility and awareness around the world, promoting major collaboration in order to achieve effective, safe, and cost-effective global health.

Scope of Journal

Global Journal of Novel Research in Applied Sciences (NRAS) is dedicated to the publication of original research articles, Review articles, for the utilization of the improvement of knowledge containing new insight into any aspect of Applied Sciences, Engineering, and Technology.

The scope of coverage is broad, encompassing all the articles explaining and exploring the areas of Applied Microbiology, Applied Psychology, Agricultural Engineering, Applied Aviation Sciences, Applied Ecology, Applied Nutrition, Applied Chemistry, Biology, Biotechnology, Bioengineering, Business and Economics, Chemistry, Computer Science, Chemical Engineering, Environmental Science, Engineering Finance Food Science, Geology, Healthcare System, Linguistics, Mathematics and Statistics, Medicine and Architecture, Materials Science, Nanotechnology, Nanoscience, Natural and Technological Sciences, Physics, Social Sciences and a variety of other subjects.

Editorial Team

Editorial Message

It is with profound pleasure, we celebrate the launch of the inaugural issue of the journal, "Global Journal of Novel Research in Applied Sciences (NRAS)". I would like to extend a very warm welcome to the author, researcher to read the first issue of NRAS. I take this opportunity to thank our authors, editors and anonymous reviewers, all of whom have volunteered to contribute to the success of the journal.

The 'NRMS' Journal is focused on the scientific and research findings in order to enlighten and disseminate scientific findings, guidance, risk assessment judgments, and recommendations for future study in medical science, medicine, microbiology, biochemistry, and pharmacology. It also intends to raise scientific work's visibility and awareness around the world, promoting major collaboration in order to achieve effective, safe, and cost-effective global health.

We appreciate contributions from the researchers working on any applied science real-world problems with near-term practical utility in a multidisciplinary field of application.

I conclude here by inviting everyone to submit their exciting research to NRAS. All papers receiving a high degree of enthusiasm in the peer-review process will find a home in NRAS. Therefore, we are committed to publishing all discoveries, methods, resources, and reviews that significantly advance the field of applied science and its applications to work for the benefit of the society.

I am delighted with the overwhelming response for Vol.1, Issue.2. Our target is to provide authors with a decision on submitted articles on time. On behalf of editorial members, I welcome feedback from every stakeholder like our readers and contributors to enhance the overall quality of the journal.

With best wishes.

Prof. A. Muthukumaravel
Editor-in-Chief
